MISTER FIX®
Inrom Construction Industries

Letter of Recommendation

Date: March 12, 2026

Attn: Dear Sir/Madam,

Re: Letter of Recommendation for eco BRICK Innovio Ltd.

We, Carmit Mister Fix part of Inrom Group are writing this letter to highly recommend eco BRICK Innovio. Carmit Mister Fix is a leading company in the building powder industry We are intimately familiar with eco BRICK Innovio's operations, having collaborated with them within the framework of ready use concrete cement plaster ex

The innovative technology developed by eco BRICK Innovio, which converts various types of waste into advanced engineered aggregate, has impressed us deeply. We were particularly struck by their ability to produce an aggregate composed of 99% waste that meets the ASTM C331 standard / produce concrete mixtures/cold-mix asphalt with superior engineering performance / offer a comprehensive "circular economy" solution that sequesters carbon and prevents soil contamination.

Throughout our joint work, the eco BRICK Innovio team demonstrated great professionalism, seriousness, and a high level of commitment to the project's success. They tackled operational and engineering challenges with creativity and efficiency. We believe that eco BRICK Innovio's technology and products possess tremendous potential to transform the infrastructure and construction industry in Israel and worldwide. Their solution provides a genuine and comprehensive answer to the waste problem, while creating high-quality, sustainable raw materials.

In light of our positive experience, we recommend eco BRICK Innovio as a reliable and professional strategic partner for any company seeking to promote innovation and sustainability in its operations. We would be pleased to provide further details if necessary.

Sincerely

Arik Magal Vp

Carmit Mister Fix
